

# Beyond the Results

## Genitourinary Pathology

### A Consultative Approach to Patient Care

ACL Laboratories offers full genitourinary pathology services bringing together proven pathology expertise and advanced diagnostics. Our goal is to provide timely, appropriate, accurate and cost-effective evaluation of each specimen, integrating the various results obtained into a single diagnosis.

Great Lakes Pathologists, SC (GLP) provides local pathology and laboratory medicine services for ACL Laboratories and Aurora Health Care facilities. Our board certified pathologists provide continuous consultation services and are available to discuss cases directly with clinicians. The pathologists at ACL Laboratories are an important part of your clinical team to ensure definitive diagnosis and optimal case management for each patient.
